MEMORANDUM FOR: Project Director

SUBJECT TYURA TAM

1. The Army, Navy, and Air Force members of the Ad Hoc Requirements Committee this afternoon endorsed the TYURA TAM mission on the ground that the coverage was of such importance as would be worth a protest. The DD/I did not concur. I have requested OSI to prepare a more extensive bill of particulars explaining their argument in Tab A of the paper in your hands.

2. It was the view of all of the ARC that a TYURA TAM mission would be worth the risk of protest provided there was a possibility and operational feasibility of on the same mission also covering NIZHNYAYA TURA, VERKHNE NEYVINSKI, and KYSHTYM.

JAMES Q. REBER
Chairman
Ad Hoc Requirements Committee
